

General Education Offerings, Spring 2020

Dr. Clifton Franklund

4/22/2020

The General Education instructional dataset for the Spring semester of 2020 included a total of 17,703 student records. This represented 274 courses which were delivered in 810 total sections. These classes were taught by 321 different instructors. Some students were enrolled in more than one General Education course for a particular competency. Therefore, there were fewer unique students (7,712) than records. In addition, some courses count for more than one of the General Education core competencies (double- or triple-dippers). Because of this, there are more total values (when adding up all the competencies) than the original dataset actually contained. Here is a brief breakdown of the records for this semester.

Competency	Courses	Sections	Instructors	Students	Records
Collaboration	89	212	130	3,188	3,995
Communication - Oral	3	31	12	818	823
Communication - Written	8	136	46	2,594	2,605
Culture	78	134	51	2,525	2,987
Diversity - Global	32	68	32	1,420	1,548
Diversity - Race, Ethnicity, Gender	31	82	27	2,064	2,436
Natural Sciences	25	93	23	1,830	2,170
Problem Solving	90	213	135	3,156	3,887
Quantitative Literacy	11	56	26	1,440	1,443
Self and Society	42	123	40	2,868	3,500
Totals	409	1,148	522	21,903	25,394
